TG Tile Gallery

A full-stack e-commerce style gallery platform for browsing and discovering premium tiles. Built with Next.js and deployed live on Vercel.

- Stack: Next.js, React, Tailwind CSS
- Features: Product listing, user authentication, responsive UI
- Deployed on Vercel fully production ready

KeenKeeper – Full-Stack Task & Project Management Web App

Developed a dynamic, responsive web application designed for efficient task tracking and productivity management.

fullBuiltTech Stack: React.js, Node.js, Tailwind CSS.

DocAppoint – MERN Full-Stack Project ([Live Link](#):

<https://docappoint-client-qc91.vercel.app>)A comprehensive doctor appointment system built with the MERN stack. Features a user-friendly interface for booking appointments, secure doctor-patient user roles, and full CRUD operations for scheduling. Fully responsive and optimized for production deployment on Vercel.

Portfolio link:
<https://my-portfolio-beta-six-82.vercel.app/>

Built a fully responsive personal portfolio website utilizing TypeScript for robust type-safety and cleaner code architecture.
Integrated dynamic features and a clean UI to showcase full-stack projects, skills, and technical expertise effectively.
Optimized application performance and deployed the production-ready build seamlessly on Vercel

EDUCATION

2022 – Present

Rangpur, Bangladesh

Diploma in Engineering — Computer Science

Rangpur Ideal Institute of Technology (RIIT)

ACTIVITIES

Nextcode Campus Club

Active member participated in coding events, hackathons, and peer learning sessions.

Campus Ambassador Phitron

Representing Phitron at RIIT promoting programming education among peers.

LANGUAGES

Bangla

Native

English

Proficient
